

AARP Network of Age-Friendly States and Communities Members-Only Webinar Series

Created by the **AARP Livable Communities** team for staff and volunteers from member communities in the AARP age-friendly network, the webinar series will bring together the many local leaders and advocates who are involved in age-friendly efforts throughout the nation. The discussions will revolve around policy and process — including but not limited to common mistakes and best practices, challenges and successes. AARP staff will facilitate the conversations as participants share their knowledge, ask questions and collectively work to make communities nationwide more livable and age-friendly for people of *all* ages.

All webinars begin at 3 pm (ET). Registration will open one week prior to each event date.

Members communities and states are encouraged but not required to attend these webinars
